Technical Data Sheet (TDS)

Hot Melt Adhesive

Typical Physical Properties
- Typical Application Temperature Range: 300°F – 350°F
- Viscosity: 3900 – 5400 cps @ 350°F
- Softening Point: Approx. 225°F
- Color: Off-White to Opaque

General Uses and Product Characteristics
HMT-1204 is a low viscosity, flexible adhesive for general purpose product assembly. Excellent for bonding a variety of substrates including plastics, woods, foams, paper board stocks, fiberglass and sound deadening materials.

Storage and Handling Suggestions
Store in cool, dry place in the original shipping container only. Keep container closed and tightly sealed when not in use to avoid contamination. The product is lightly powdered to reduce blocking.

Clean-up and Safety Information
For purging, use HMT's 1200-HMP purge compound. To minimize the risk of burns, we recommend the use of eye protection and protective clothing when working near the hot melt applicator.

Packaging Information
Package changes can occur without notice.

1204
Chemistry
- Synthetic Resin

Form
- Pillows

Shelf Life
- One year from the date of shipment.

Meet composition requirements of Indirect Food Additives Regulation 21CFR175.105 “Adhesives.”

Standard Disclaimer
The data presented is based on tests standard to the adhesive industry. Because we have no control over the application process or the substrates used by the customer, HMT can not certify the performance of the assembly the adhesive is used on. HMT will assume no responsibility for results obtained or for incidental or consequential damages arising from the use of this adhesive.

Approx. Pallet Dimensions: L=48", W=40", H=51"
- Full Pallet Weight: 1200 lb Net (40 boxes)
- Rows per Full Pallet: 4
  - Weight per Row: 300 lb Net (10 boxes)

Container Type: Box
- Container Dimensions: L=17", W=10", H=11"
- Container Weight: 30 lb Net
